PROFESSIONAL EXPERIENCE & FEATURED PROJECTS

FORTUNARA - (PROFESSIONAL PRACTICE)

2025 Jun - Present

Developed and maintained interactive and scalable web modules using React, Next.js, and TypeScript, improving user experience and performance through code optimization.

Implemented responsive designs and adaptive layouts, ensuring consistent display across all devices and screen sizes.

Programmed and deployed web pages for tour companies, integrating booking systems, interactive forms, and dynamic data handling for real-time reservations.

Integrated dynamic sections and sliders with Swiper.js, enhancing interactivity and visual presentation for marketing sections.

Collaborated in UX improvements and component refactoring to maintain a clean, scalable codebase aligned with modern front-end practices.

COORDINATION OF INFORMATICA Y TECNOLOGÍA MULTIMEDIA

2024 Jul – 2024 Dec

Supported the development and maintenance of academic web systems and digital course materials.

Managed the equipment inventory for the Informatics and Multimedia Coordination, ensuring efficient control and resource tracking

Contributed to documentation and testing of internal web applications.

SPORTS UNIT

2024 Jul – Present

Assisted in publishing content on the campus website, supported athletic and recreational activities, created infographics on health, athletics, and recreation, and helped review plans and reports, focusing on attendance lists and athletic scholarship applications.

ATTIMO - (COURSE AND ASSIGNMENT MANAGMENT SYSTEM)

2024 Mar – 2024 Jun

Developed a web platform that allows users to register, manage enrolled courses, access assignments, and visualize progress charts for pending submissions.

Focused on building an intuitive and responsive interface to enhance usability and improve the student experience in managing academic activities.

NETWORK APP - (TALENT CONNECTION PLATFORM)

2024 Jul – 2024 Dec

Co-created Nex Devs, a platform that connects developers with small businesses, SMEs, and startups, enabling networking, project collaboration, and job opportunities.

Designed and implemented a modern interface focused on usability, efficient profile matching, and collaborative project visibility to support business growth through the right tech talent connections.

EDUCATION

UNIVERSIDAD DE COSTA RICA (UCR), SEDE PACÍFICO
